EMERGING HIGH-GRADE GOLD PRODUCER IN A NEW MINERALS DISTRICT

Q3 2025

www.erdene.com

This presentation contains certain forward-looking information and statements which may not be based on fact, including without limitation, statements regarding the Company's expectations in respect of its future financial position, business strategy, timing of production at Bayan Khundii, construction and commissioning timelines and expectations that address reserve potential, exploration drilling, exploitation activities, budgeted financial results, and events or developments that the Corporation expects to take place in the future. All statements, other than statements of historical facts, are forward-looking information and statements. The words "believe", "expect", "anticipate", "contemplate", "target", "plan", "intends", "continue", "budget", "estimate", "may", "will" and similar expressions identify forward-looking information and statements. In addition to the forward-looking information and statements noted above, this presentation includes those that relate to: the expected results of exploration activities; the estimation of mineral resources; the ability to identify new mineral resources and convert mineral resources into mineral reserves; ability to raise additional capital and complete future financings; capital expenditures and costs, including forecasted costs; the ability of the Company to comply with environmental, safety and other regulatory requirements; future prices of precious metals; the ability of the Company to obtain all necessary approvals and permits in connection with the development of the Bayan Khundii Gold Project.

Such forward-looking information and statements are based upon a number of estimates and assumptions that, while considered reasonable by the Company as of the date of such information and statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies. These estimates and assumptions relate to, among other things, the continuance of the Company and its subsidiaries as a going concern, general economic and market conditions, gold prices, the accuracy of mineral resources and mineral reserve statements, and the other estimates and assumptions contained in the Bankable Feasibility Study.

Readers are cautioned that forward-looking information and statements are not guarantees of future performance. There can be no assurance that such information and statements will prove to be accurate and actual results and future events could differ materially from those presented in such information and statements. Forward-looking information and statements is subject to a variety of risks and uncertainties which could cause actual events or results to differ from those reflected in the forward-looking information and statements. Such risks include, but are not limited to, the volatility of the price of gold, uncertainty of mineral resources, exploration potential, mineral grades and mineral recovery estimates, delays in exploration and development plans, insufficient capital to complete development and exploration plans, risks inherent with mineral acquisitions, delays in obtaining government approvals or permits, financing of additional capital requirements, commercial viability of mineral deposits, cost of exploration and development programs, risks associated with competition in the mining industry, risks associated with the ability to retain key executives and personnel, the impact of COVID-19, title disputes and other claims, changes in governmental and environmental regulation that results in increased costs, cost of environmental expenditures and potential environmental liabilities, accidents and labour disputes. Should one or more of these risks and uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in forward-looking information and statements. Please see the Company's Annual Information Form dated March 25, 2025 available on the Company's website at www.erdene.com or on the Company's SEDAR+ profile at www.sedarplus.ca, for details of other risks facing the Company. The Company disclaims any intention or obligation to update or revise any forward-looking information and statements whether as a result of new information, future events or otherwise, except to the extent required by applicable laws.

The Company has included certain non-IFRS financial measures in this presentation, such as Earnings before Interest, Taxes, Depreciation and Amortization ("EBITDA"), Initial Capital Costs, Total Cash Cost, All-In Sustaining Cost, and Effective Cash Tax Rate which are not measures recognized under IFRS and do not have a standardized meaning prescribed by IFRS. As a result, these measures may not be comparable to similar measures reported by other corporations. Each of these measures used are intended to provide additional information to the user and should not be considered in isolation or as a substitute for measures prepared in accordance with IFRS.

Peter Dalton, P.Geol. (Nova Scotia), Senior Geologist for Erdene and a "Qualified Person" under National Instrument 43-101, has reviewed and approved the scientific and technical information in this presentation. All currencies are reported in Canadian dollars unless otherwise specified.

EMERGING HIGH-GRADE GOLD PRODUCER IN A NEW MINERALS DISTRICT

A Compelling Investment Proposition

Discovery of New Minerals District Provides Long Term Growth

- Systematic regional exploration since 2009 has led to the discovery of the Khundii Minerals District – one of the most exciting emerging minerals regions in Asia

Near-term, high-grade gold production

- Bayan Khundii will be one of the highest-grade, open-pit mines globally, with low all-in sustaining costs and first production in Q3-2025

Exploration potential to extend mine life within extensive gold system

- Discoveries at Striker West, Dark Horse and Ulaan, and a higher gold price provide abundant near-mine resource expansion opportunities to extend LOM 10+ years

Growth within project portfolio beyond Bayan Khundii

- Beyond the Bayan Khundii system significant optionality and exploration upside through the Altan Nar Gold deposit, Zuun Mod Molybdenum project and regional exploration and acquisition

People & Partners

- Experienced team, supportive shareholders and Powerful Alliance with Mongolia's leading miner backed by one of the Country's largest conglomerates

A WINDOW OF OPPORTUNITY – LIMITED EXPLORATION IN A HIGHLY PROSPECTIVE BELT

Global distribution of giant arc related gold and copper deposits

Locations of giant ore deposits discussed in this paper and significant arc-related metallogenic belts (purple lines).
Base map modified from World of Maps™ (© Bruce Jones Design, 2010).

BAYAN KHUNDII LOCATED IN A GROWING MINING REGION

Less than 200 km from the Chinese Border, Multiple Mines in Vicinity

MAKINGS OF A MULTI-MINE, MULTI-COMMODITY DISTRICT

Multiple deposits in close proximity to be developed in sequence – more than 20 additional prospects in district

UNITING MONGOLIA'S LEADING EXPLORER AND MINER WHILE MAINTAINING LONG TERM UPSIDE

Strategic partner with capital and operational experience

**After initial 400,000oz Au production; includes properties acquired within 5km of the licenses*

FINANCIAL PARTNERS

Backing of leading international and domestic institutions

Mongolian Mining Corporation – Equity

- US\$40M equity investment in Erdene's subsidiary
- Forecast ~US\$500M EBITDA annually₁

Mongolian Mining Corporation – Loan

- US\$80 million, 5-year shareholder loan repayable in full upon maturity
- Interest rate of 13.8%, with option to capitalize the first four interest payments
- Erdene has the right to purchase 50% of the loan and participate on the same terms as MMC

Trade & Development Bank of Mongolia

- US\$50 million, twenty-four month, working capital facility, repayable in six equal payments during the last six months
- Interest rate of 13.3%

European Bank for Reconstruction and Development

- Major shareholder (8%) following loan conversion in Q4 2020
- Largest foreign direct investor in Mongolia with €2.4 invested, including senior lender to Oyu Tolgoi

Eric Sprott

Eric Sprott

- Erdene's largest shareholder (20%)

Mongolian Stock Exchange

- Sharing benefits with more than 7,000 Mongolian shareholders
- Erdene is first company cross-listed on both Mongolian and Toronto Stock Exchanges

1. Per Fitch Ratings report

BAYAN KHUNDII DEPOSIT – RESOURCE AND RESERVES

Utilizing US\$1800 gold price for reserve cut-off grades and US\$2000 gold price for Whittle Pit resource shells

EXCELLENT GRADES AT ULAAN, 500 METRES WEST OF BAYAN KHUNDII PIT

High-grade structure traced over 300 metres deep

DARK HORSE: GOLD ENRICHED SUPERGENE AT SURFACE – 15 METRES OF 42.8 G/T (AAD-178)

Ultra high-grade satellite deposit to be mined from year three

ALTAN NAR – HIGH GRADE DEPOSIT JUST 16KM NORTH OF BAYAN KHUNDII

5.6km long under-explored mineralized system

2019 Resource	Category	Au Oz (1.9g/t)	Ag Oz (~10g/t)	Pb lbs (~0.6%)	Zn lbs (~0.6%)
Altan Nar	Indicated	318,000	2,350,000	63,800,000	69,520,000
0.7g/t AuEq cut-off	Inferred	186,000	866,000	49,060,000	52,140,000

Carbonate base metal-intermediate sulfidation epithermal deposit similar to some of the world's largest:

- Fruta del Norte (Ecuador): 6.7Moz Au
- Porgera (Papua New Guinea): >25Moz Au
- Kelian (Indonesia): 5.7Moz Au
- Montana Tunnels (USA): 36Moz Ag
- Roşia Montană (Romania): 17Moz Au

Tremendous potential to materially increase resources with minimal drilling

- Resources are focused in two zones within a 5.6km x 1.5km mineralized corridor
- +20 mineralized target areas along trend
- Extremely shallow – 90% of resources are within 150 meters of surface with system open at depth

ALTAN NAR DEPOSIT – DISCOVERY ZONE – HIGH GRADE POLYMETALLIC DEPOSIT

Deposit remains open at depth with multiple holes ending in mineralization

High Grade Discovery Zone

Mineralized epithermal and hydrothermal breccia (black/red) surrounded by phyllic alteration

- 4m of 104 g/t Au, 108 g/t Ag, 3.7% Pb and 5.9% Zn (TND-101)
- 7m of 45.7 g/t Au, 93 g/t Ag, 1.5% Pb, 3.4% Zn (TND-135)

Discovery Zone mineralization is formed at the contact of a volcanic breccia and andesite

ZUUN MOD – ONE OF ASIA’S LARGEST UNDEVELOPED MOLYBDENUM DEPOSITS

Moly market set to enter deficit – prices reached all time highs within past 24 months

OWNERSHIP

- 100% owned by Erdene
- 30+ year Mining License secured

LOCATION

- 180km from China, the world’s largest stainless steel producer and biggest consumer of the metal
- 30km east of the Bayan Khundii Gold Project

MOLYBDENUM MARKET

- Molybdenum prices are elevated due to depleting supply and increased demand from renewable power on top of stainless steel
- US\$20-\$40/lb price range in the past two years, equivalent to 5-10x current copper prices – higher than Cobalt

ZUUN MOD IS LOCATED ON THE DOORSTEP OF ONE OF THE WORLDS LARGEST STEEL PRODUCER AND MOLYBDENUM CONSUMER

In 2022, China alone ran a molybdenum deficit of 20Mlbs

Versamet Royalties Corp. holds a 1.5% net smelter return royalty on the Zuun Mod License, subject to a buy-down provision.
NI 43-101 Technical Report, Zuun Mod Porphyry Molybdenum-Copper Project, Minarco-MineConsult, June 2011

ZUUN MOD – PORPHYRY MOLYBDENUM, COPPER, SILVER SYSTEM, 16KM IN CIRCUMFERENCE

35 km west of Bayan Khundii – Open at depth with multiple prospects within and outside of current mineralized envelope

43-101 Resource Estimate Cutoff 0.04% Mo

Ordinary Kriging Estimate Zuun Mod

COMMITTED TO MONGOLIA

Our home for 25 years

- We have been supporting our host communities for +10 years before the construction decision
- **We have invested ~US\$100M in Mongolia since inception**
- The Bayan Khundii Gold Project is forecasted to **contribute ~\$250M in direct taxes & royalties** to the Mongolian Government over 6 years and **support 500 direct jobs¹**
- Longstanding, deep relationships at all levels of government and well respected within the Mongolian business community
- Peter Akerley awarded the Order of the Polar Star (highest civilian award Mongolia presents to foreign citizens)
- **Erdene is the first cross - listed company on the Mongolian and Toronto Stock Exchanges**
- 70% of the executive team reside in Mongolia and we have ~7,000 Mongolian shareholders

SETTING STANDARDS FOR RESPONSIBLE MINING IN BAYANKHONGOR

Investing in Our Communities

Job Creation

+1000 Direct and indirect job creation
+300 New jobs for province residents

Support Health Services for Local Community

Preventive screening and diagnosis for local community
Programs to improve the quality and accessibility of healthcare

Education & Training

Employment orientation & professional training
Heavy equipment operator training
/+160 trainees 10 sessions/
Vocational training

Environmental Protection

Community inclusive environmental monitoring
Conservation of biodiversity
"Billion Trees" Initiative

Supporting SMEs

Startup business support program
Support programs for herders and farmers
Interest-free loan program

Support Infrastructure Development

Water supply system of Shinejinst soum
Sanitary facilities for soum elementary school and kindergarten
Road repair and maintenance
Feasibility study for the Bayankhongor-Shinejinst highway

Protection of Cultural Heritage

Cultural festivals and events
Cultural heritage preservations initiatives

POISED FOR GROWTH

Cashflow from the Bayan Khundii Gold Project will unlock the value of the Khundii Minerals District
